

MIDIRS Midwifery Digest 2025

A

A-EQUIP model 241
abdominal palpation 80
advanced maternal age 155
advocacy 241–244, 354–361
antenatal care 252–254
anxiety 300
appreciative inquiry 162–165
artificial intelligence 31–36
autism 67–72

B

bereavement care 82–86, 127–129, 176, 347–351
birth before arrival 394–400
birth centres 171–175
birth marks 210–211
birth weight 301
Black midwives 109–115
Black women
 perinatal mental health and peer support 8–18
 uptake of healthy eating advice 372–383
bodily autonomy 387
body image 178
body mass index (BMI) 224–232, 328, 352–353
bonding 183
breastfeeding
 during heel lance 184
 effect of VR headsets on breast milk production 300
 exclusive 87, 299
 following caesarean section 87
 pre-pregnancy knowledge and attitudes 179–182
 premature infants 419–422
 self-efficacy 410
 see also infant feeding
bullying 338
burnout 128, 150–151, 169–170, 341–343, 361

C

caesarean section
 impact on breastfeeding 87
 rates 77–78
 skin-to-skin care 183
cardiotocography 363–371
Caring Matters Now charity 210–211
change management 151–152
childbirth
 before arrival 394–400
 fear of 58–66, 264–274
 home birth against guidance 384–393
 medicalisation 386–387
 physiological 121–123, 225, 230, 255–259, 264–269
 see also labour
clinical incidents 104–105
communication 69, 84, 102–108, 157–161, 282, 376
complementary therapies 264–274
congenital heart disease 116–118
congenital melanocytic naevi 210–211
consumer information 178, 372–383
continuing professional development 134–136
continuity of care 43–48, 150–151, 291–298
COVID-19 117, 169–170
cultural competency
 healthy eating information 372–383
 pronunciation of names 103–104
 RCM *Decolonising midwifery education toolkit* 19–25, 125–126
 student midwives 49–54
 women's experiences 212–223

D

debriefing 282–283
decolonisation 19–25, 125–126
diabetes, gestational 141–147
diet 372–383
discrimination 21–22, 109–115, 335–336
diversity see equality, diversity and inclusion (EDI)

E

Each Baby Counts programme 148–154
education 238–240 *see also* midwifery
education; postnatal education;
student midwives
equality, diversity and inclusion (EDI) 19–
25, 109–115, 125–126, 212–223,
335–336
ethnic minority midwives 109–115
evidence-based practice 134–136
exercise in pregnancy 252–254

F

fear of childbirth 58–66, 264–274
fluid balance management 137–140

G

gastroschisis 166–168
gestational diabetes 141–147

H

heart murmurs 116–118
heel lance 184
home birth 119–124, 171–175, 277–278,
384–393
hyperinsulinism 415–418
hypnobirthing 264–274
hypoglycaemia 415–418
hyponatraemia 137–140
hypothyroidism 245–251

I

immigrant women 372–383
Immune Boost project 419–422
induction of labour 157–161
infant feeding 57 *see also* breastfeeding
infant mortality 148–154, 176, 177, 185
infant, newborn
birth weight 301
congenital melanocytic naevi 210–211
gastroschisis 166–168
heart murmurs 116–118

hypoglycaemia/hyperinsulinism 415–
418

pain management 184
physical examination 116–118
removal at birth 162–165
infant, premature 185, 419–422
infertility 347–351
inflammatory bowel disease 55–58
informed choice 388
intensive care *see* neonatal intensive care
interprofessional education 238–240
intimate partner violence 130–133, 291–
298

J

Japan 238–240

L

labour
fetal monitoring 363–371
hypnobirthing 264–274
induced 157–161
infant with gastroschisis 166–168
intrapartum transfer 171–175
pain 264–274
prodromal 275–276
upright positions 73–79
use of peanut balls 401–405
women with inflammatory bowel
disease 57
women with raised BMI 224–232, 352–
353
see also childbirth
leadership 26–30, 151–152, 334–335
learning methods 49–54, 238–240
lipoedema 326–331
low-income countries 176, 177

M

maternal mortality 177
maternity services
culturally-competent evaluation 212–
223
decolonisation 19–25, 125–126

- impact of COVID-19 117, 169–170
- implementation of continuity of care 43–48
- increasing home birth uptake 277–278
- MBRRACE-UK 26–30
- medical errors 104–105
- medicalisation of childbirth 386–387
- mental health
 - fear of childbirth 58–66, 264–274
 - specialist midwives 295–296
 - virtual reality technologies 300

 - intrapartum care in obstetric-led settings 255–263
 - perinatal loss/infertility 347–351
 - Professional midwifery advocate preparation course 360–361
 - use of peanut balls 401–405
- midwives' perspectives
 - CTG training 363–371
 - home birth 119–124
 - implementation of continuity of care 43–48
 - post-birth trauma 233–237
- Mummas Together Group (MTG) 8–18

N

- names and naming 102–108
- neonatal intensive care 185, 288–291
- neurodiversity 67–72
- newborn and infant physical examination (NIPE) 116–118
- NHS staff survey 332–346

Nursing and Midwifery Council (NMC)
109–114

O

obesity 224–232, 326–331, 352–353
obstetric-led settings 255–263

P

pain

- hypnobirthing for pain relief 264–274
- in pregnancy 252
- neonatal 184

parenting 69–70, 82–86

pay 336–337

peanut balls 401–405

peer support 8–18

perinatal mental health

- autistic women 67–72
- following stillbirth 82–86
- peer support 8–18
- post-birth trauma 233–237

perinatal mortality 148–154, 176, 177, 185

perineal trauma 76–77, 80–81

physiological childbirth 121–123, 225,
230, 255–259, 264–274

place of birth 171–175, 185 *see also*
home birth

positions in labour 73–79, 401–405

postnatal care

- following preterm birth 288–291
- postnatal transfer 171–175
- postpartum haemorrhage 279–287

postnatal education 406–414

postnatal health

- body satisfaction 178
- post-birth trauma 233–237

postpartum haemorrhage 279–287

pregnancy

- abdominal palpation 80
- advanced maternal age 155
- complications
 - gestational diabetes 141–147
 - hyponatraemia 137–140
 - hypothyroidism 245–251
 - inflammatory bowel disease 55–58

- lipoedema 326–331

- domestic abuse in 291–298

- fluid intake 137–140

- healthy eating information 372–383

- pain in 252

- physical activity 252–254

- women with raised BMI 224–232, 328,
352–353

premature infants 185, 419–422

preterm birth 88, 288–291

prodromal labour 275–276

Professional midwifery advocate (PMA)
241–244, 354–361

psychological safety 112–113

Q

quality improvement 288–291, 357–358

R

racial bias 103–104, 111, 113

racial disparities

- evaluating women's experiences 212–
223

- in midwifery education 19–25, 125–126

- in perinatal mental health support 8–18

- midwives' experiences 109–115

- see also* equality, diversity and
inclusion

reflective practice 80–81, 127–129, 157–
161, 166–168, 238–240, 360–361

research

- culturally competent 212–223

- elective placements 26–30, 135

- leadership 26–30

- student engagement 134–136

risk management 224–232, 352–353,
386–387

Royal College of Midwives (RCM) 19–25,
125–126

S

Safer Births Bundle of Care program 177

screening 142, 293–294

self-efficacy 410

- sexual harassment/abuse 130–133, 343–344
- simulation-based training 183
- skin-to-skin care 183
- social media 178
- Southeast Asia 87
- staff shortages 169–170, 340–341
- stillbirth 82–86, 177
- stress, work-related 338–339, 361
- student midwives
 - bereavement care 127–129
 - cultural sensitivity 49–54
 - equality, diversity and inclusion 109–115, 125–126
 - experience of birth with gastroschisis 166–168
 - global mobility 49–54, 238–240
 - and induction of labour 157–161
 - leadership placements 26–30
 - research participation 134–136
 - support and attrition 354–359
 - transition to clinical practice 37–42
- supervision of midwives 37–42, 241–244, 354–361

T

- Tanzania 177
- TOTEMM project 49–54
- transfer
 - intrapartum/postnatal 171–175
 - neonatal 185
- transition to parenthood 8–18, 406–414
- transnational learning 49–54, 238–240
- trauma-informed care 130–133, 162–165, 233–237

U

- Uganda 176
- United Arab Emirates (UAE) 130–133

V

- vaginal birth 73–79
- violence
 - against women 130–133, 291–298

- in the workplace 337–338
- obstetric 387
- virtual learning 49–54
- virtual reality technologies 300

W

- women's experiences
 - autistic mothers 67–72
 - baby removal 162–165
 - body satisfaction 178
 - cultural competency 212–213
 - perinatal mental health 8–18, 67–72
 - postnatal education 406–414
 - upright birthing positions 73–79
 - weight stigmatisation 224–232, 352–353
- women's perceptions
 - pre-pregnancy breastfeeding knowledge 179–182
 - traumatic birth 233–237
- workplace culture 255–263, 332–346
